rubenjr0.eu · LinkedIn · GitHub

Languages

Spanish	Native
English	Professional
German	Beginner

Skills

PROGRAMMING

Rust, Python, TypeScript, Java, SQL

AI & AGENTIC

Agentic workflows (Pydantic AI), LLM evaluation & auditing, ML training & deployment, Computer Vision, real-time voice (LiveKit)

BACKEND

REST & RPC APIs, auth & authorization, real-time systems, backend architecture, event-driven design

DATABASES

PostgreSQL, SQLite, Redis, schema design & migrations

SECURITY

Cryptography, network security, authentication (OAuth, JWT, Paseto), zero-trust, threat modeling

TOOLS & INFRASTRUCTURE

Docker, Linux, Google Cloud, GitLab CI/CD, Logfire, Git

Experience

SOFTWARE DEVELOPER · LEXIC.AI

Spain Mar 2026 – Present

- Build agentic AI workflows and backend systems with Python, FastAPI and Pydantic AI for business intelligence applications.
- Develop an AI auditing platform that evaluates agent quality and enforces regulatory compliance.

JUNCTIONX MÁLAGA

Hackathon · Winner Sep 2023

Steganography-based traceability system using fingerprinting for digital content protection. Advanced to world finals in Finland.

OPEN SOURCE

14k+ downloads across personal crates. Contributor to *Burn*, the Rust deep-learning framework.

Education

BACHELOR IN COMPUTER SCIENCE ENGINEERING

Universidad de Málaga, Spain 2019 – 2025

Outstanding Bachelor thesis: ML model estimating depth map variance for multi-source fusion (9.5/10).

Notable grades: Machine Learning (10/10), Systems Programming & Concurrency (with honors).

ERASMUS EXCHANGE

Politechnika Warszawska, Poland 2023

Master's-level Computer Vision & Advanced ML taken during my bachelor's, 10/10 in both.
